

Homeowner Septic System Checklist

Septic System Description

Contact your local authority if you don't have this information.

Date system installed _____

Installer _____

Phone _____

Tank size _____ gallons

Capacity _____ bedrooms

Type conventional

alternative (type) _____

Things to keep in mind:

- ✓ Inspect your system (every 1 to 3 years) and pump your tank (as necessary, generally every 3 to 5 years).
- ✓ Use water efficiently.
- ✓ Don't dispose of household hazardous wastes in sinks and toilets.
- ✓ Plant only grass over and near your septic system. Roots from nearby trees or shrubs might clog and damage the drainfield.
- ✓ Don't drive or park vehicles on any part of your septic system. Doing so can compact the soil in your drainfield or damage the pipes, tank, or other septic system components.

Not in My Septic System!
