

Healthy Snacks For Healthy Kids

Tips for Parents At Home

Why Does My Child Need Snacks?

Children have much smaller stomachs than adults. A child needs smaller amounts of food many times throughout the day to get the amount of nutrients they need to be healthy.

Why Are Snacks Important?

Snacks are an important time to make sure your child is getting the good things in food that a child needs. Healthy snacks provide children with nutrients they need that are not provided in the meals they eat.

How Does Eating The Right Amount Of Nutrients Affect My Child?

A child that gets the right amount of nutrients has a healthy body and mind. A child that is not getting the right nutrients can be linked to low math skills, absenteeism, tardiness, anxiety problems, grade repetition, aggression, and poor social skills.

How To Read A Food Label

Sample label for Macaroni & Cheese

Nutrition Facts	
Serving Size 1 cup (228g) Servings Per Container 2	
Amount Per Serving	% Daily Value*
