Free Immunizations Available for South Central Idaho Teens

South Central Public Health District and the United Way of South Central Idaho want to give a boost to teen immunization levels by offering free immunizations to 12 to 18 year olds.

The focus of this free immunization clinic is to ensure that teens are up-to-date on their Tdap (Adult tetanus, diphtheria & pertussis), Hepatitis A and B, MMR, Meningitis and Chickenpox. The free immunizations do not include HPV vaccine also known as the “cervical cancer vaccine”. Free HPV vaccine is limited to eligible teens who are either uninsured, underinsured, Medicaid eligible or American Indians/Alaska Natives. Those interested in HPV vaccine can schedule an appointment during regular immunization clinic hours.

The Free clinics (by appointment only) are scheduled for March 18, 24, 25, 26 and 27 at South Central Public Health District (SCPHD) offices in Bellevue, Burley, Gooding, Jerome, Rupert, Shoshone, and Twin Falls. Funds are being provided by the Community Health Improvement Fund from St. Luke’s Magic Valley Regional Medical Center through the United Way of South Central Idaho. These funds will cover the cost of the usual administration fee.

The dates and locations of the free clinics are as follows (please call for an appointment):
